The time has come for China to stop shedding blood. It is unworthy of China to constantly shed blood, ruthlessly oppressing people in the enforcement of violence and repression. IT IS A MUST THAT THE TURKISH-ISLAMIC UNION BE FOUNDED AT THE SOONEST TIME SO THAT THIS, THE WORST GENOCIDE IN THE HISTORY OF THE WORLD, CAN BE BROUGHT TO AN END AND FOR ALL FORMS OF OPPRESSION ACROSS THE WORLD TO CEASE. The states of the world must unite against this oppression, and international law must be enforced immediately.

**THE TURKISH-ISLAMIC UNION**  
THAT WILL BRING PEACE AND LOVE BACK TO THE WORLD  
A world map with the Turkish flag and the Islamic crescent and star, highlighting the region of the Turkish-Islamic Union.

The Turkish-Islamic Union is the clear and certain solution, the salvation of East Turkestan, Palestine, Iraq, Afghanistan, the Crimea, Kirkuk and Moro. **It is essential for the Turkish-Islamic Union to be established** for the shedding of Muslim blood to stop, for the poverty in Islamic countries to come to an end, for the disorder, anarchy and terror in the Turkish Islamic region to be completely eliminated and for a peaceful, secure, prosperous and enlightened civilization to be built. It is impossible for a disunited Islamic world to protect Muslims from coming to harm. Only when the Muslim world, with its 1 billion or so population, will become one not a hair on the head of a single Muslim anywhere be harmed. Only in Turkey is there any condemnation of the repression taking place in East Turkestan. **But if the Turkish-Islamic Union is founded and the whole of this enormous region condemns Chinese persecution, then that persecution cannot continue.**

The existence of the Turkish-Islamic Union will both eliminate all of China's concerns and fears and also establish an environment in which not a single Muslim will suffer the slightest injustice and loss. The only way for China to prosper; to continue to exist without being repressed, alienated; without its economy be shaken; to have access to the energy sources necessary for its industry; and to become a respected state is not to pursue a policy based on violence. China can attain these goals only by the establishment of the Turkish-Islamic Union.

The Turkish-Islamic Union will both protect the rights of Muslims who live in East

Turkistan in the best manner and establish a secure environment in which Chinese and Uyghur Turks live together in peace and brotherhood. It will also contribute to the development and refreshment of China. It is obvious that an East Turkestan spiritually attached to the Turkish-Islamic Union will have a friendly contribution to China's becoming a super-power. The Chinese administration should also recognize this fact.

Unity lies at the heart of Islamic moral values. Allah reveals in the Qur'an, in the words "...If you do not act in this way (do not help one another and become friends) there will be turmoil in the land and great corruption." (Surat al-Anfal, 73) that believers must be friends and allies, united and unified, for the corruption in the world to come to an end. **The Turkish-Islamic world must demand this union.** Failure to demand union means demanding division instead, and division is of no use to the Turkish-Islamic world. Muslims' strength, power and best interests all lie in unity.

**It is time for the Turkish-Islamic world to become one.** The unification of the Turkish Islamic world which is one in language, religion, tradition and beliefs is an urgent responsibility for all Muslims. The Islamic and Turkish world is waiting for this unification with great enthusiasm and eagerness. There should be no delay in this issue; the necessary steps should be taken at once.
