

To be dedicated to Dawkins

Richard Dawkins should read this article closely:

Jeffrey Dahmer, the American serial killer who murdered and cannibalized corpses of 17 boys before his arrest, made the following statement in an interview conducted on the Dateline NBC channel just before his death:

If a person doesn't think that there is a God to be accountable to, then what's the point of trying to modify your behavior to keep it within acceptable ranges? That's how I thought anyway. **I always believed the theory of evolution as truth, that we all just came from the slime [by chance]. When we died, you know, that was it, there was nothing.** ¹

Darwin's superstitious belief, which has poisoned vast masses of people and that Dawkins espouses, turns people into serial killers or even twists their minds sufficiently to make cannibals out of them. That is the result of this false religion which tells people they are not responsible to a Creator, which convinces them they are aimless, unfettered and with no responsibilities, which regards human beings as animals and which seeks to turn them away from the fact of the Hereafter by portraying death as the end of everything. Darwinism is the worst perversion, which has inflicted wars, massacres, repression, terror, killings, mass murder degenerations and scourges of all kinds on the world over the last two hundred years. The sole reason for the irreligion, which has developed in societies, racism, fascism, which has led to the slaughter of masses of people, communism and world wars IS DARWINISM, THE WORST DECEPTION AND SCOURGE OF THE LAST CENTURY. This scourge unleashed by Darwin and its inauspicious effect on society were maintained by means of Darwin's followers. The young people, who are under the effect of the view of Richard Dawkins' latest book that pushes people away from the belief in Allah and make them fall into pessimism; give way to despair, AND EVEN RESORT TO SUICIDE. One of the most important examples of this was Jesse Kilgore, a 22-year-old student in the United States who committed suicide under the influence of Dawkins' book that had been recommended by his professor. ²

The effect of Dawkins' terrifying perspective, based on the black ideology of Darwinism, is by no means restricted to this example. Dawkins himself admits as much in the foreword to his book *Unweaving the Rainbow*:

A foreign publisher of my first book confessed that he could not sleep for three nights after reading it, so troubled was he by what he saw as its cold, bleak message. Others have asked me how I can bear to get up in the mornings. A teacher from a distant country wrote to me reproachfully that a pupil had come to him in tears after reading the same book, because it had persuaded her that life was empty and purposeless. He advised her not to show the book to any of her friends, for fear of contaminating them with the same nihilistic pessimism. ³

This terrible scourge, Darwinism, is a deviant religion that leads people to

death, murder, despair, a feeling of nothingness, savagery and horror and that indoctrinates people with the idea that human beings are nothing more than animals that came into existence by chance. The few remaining adherents of this religion are still striving to turn people away from faith in Allah and in the direction of still greater savagery, murder, fear and violence. That is why they are so opposed to the weaknesses of Darwinism being taught in schools, why they hide away fossils that prove Creation, and are unable to admit that protein cannot come into being by chance and that 100 million fossils have all demolished Darwinism. Yet despite all their maneuvering, people in the 21st century can no longer be taken in. Now that the fraudulent nature of Darwinism has been exposed, all efforts to keep it on its feet have been in vain. People have begun turning to Allah in droves. They are enjoying the pleasure of knowing that Allah created them and that they have not entered the world for no reason, and the peace and comfort of understanding that they will live for ever in the Hereafter. They act in the knowledge they are responsible to Allah, do what religious moral values require of them, and enjoy all the delights that remind them of the blessings of Paradise. The repressive environment that Darwinists seek to inflict on the world is giving way to one of peace, made up by people who are genuinely devoted to Allah.

MUSLIM CONVERTS IN GERMANY Font: - +

Angst-Ridden Germans Look for Answers -- And Find Them in the Koran

By Lutz Ackermann

The number of Germans who have converted to Islam has increased fourfold within one year -- despite the negative perception of Islam among the general public.

In terms of his appearance, Kai Lühr seems out of place. Lühr, who is kneeling between bearded men in white robes and bowing in the direction of Mecca, is clean-shaven and wearing jeans and a gray jacket. He might pass as a member of the Christian congregation next door, sent here to cultivate inter-faith dialogue. But he clearly knows the Islamic prayer ritual too well for that to be the case. He bends over and prays in Arabic: "Allah listens to him who praises Him. Our Lord, to You is due all praise." Lühr bends over, stands up again, takes another bow -- up and down, 33 times.

The Muslim population in Britain has grown by more than 500,000 to 2.4 million in just four years, according to official research collated for *The Times*.

The population multiplied 10 times faster than the rest of society, the research by the Office for National Statistics reveals. In the same period the number of Christians in the country fell by more than 2 million.
