

# Darwinists insistently do not like the imaginary ancestor of humans, which they fabricated, to be called “ape”

Darwinists insistently do not like the imaginary ancestor of humans, which they fabricated, to be called “APE.”

From now on, we will not be calling the fictitious entities within their own imaginations, which Darwinists claim to be the imaginary ancestor of humans, "apes." If it is convenient for them, we will call them with the names below. If they are not pleased, we can change the existing names. However, we hope they will approve them:

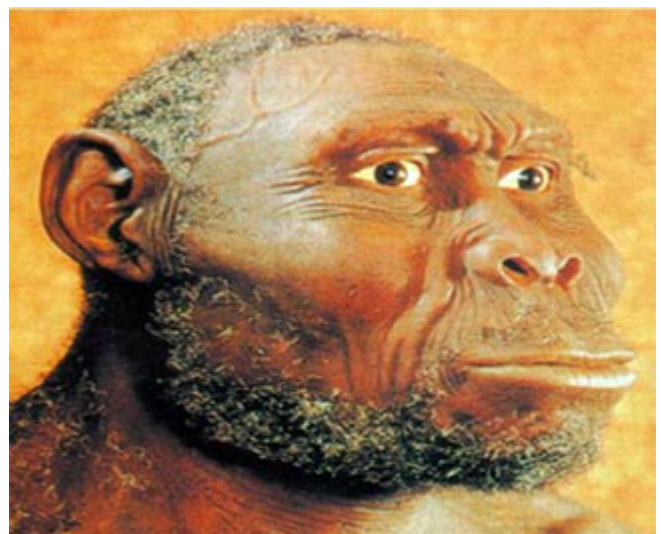

IMAGINARY FAPE

IMAGINARY DAPE

IMAGINARY PAPE

IMAGINARY WAPE

**IMAGINARY KAPE**

**IMAGINARY SAPE**
