Surah Hud, 109

“So be in no doubt about what these people worship. They only worship as their forebears worshipped previously. We will pay them their portion in full, with no rebate!”

Their forebears were also Darwinists. The Sumerians were Darwinists, the ancient Egyptians were also Darwinists and so were the ancient Greeks. Hear what it is said in the verse: **“They only worship as their forebears worshipped previously.”** Allah says they had the same kind of ideas, same beliefs: **“We will pay them their portion in full, with no rebate!”** So there will be no reduction, they will have to pay in full for everything they did. Whatever they believed about evolution, they will be paying for it, in line with their evolutionary ideas. This is one of the meanings of the verse.
